PROPERTY ROBOTS

PROPERTY ROBOTS

This is an exclusive invitation-only affiliate program.

It is free to register but you require a referral link from an existing member and should enter your details accurately.

Only one account per person is permitted. If multiple accounts are created, they will be invalidated entirely with no right to claim.

Property Robots operates as a Unilevel Affiliate Plan.

After registration, the member is designated as an Ambassador, commencing at Ambassador Level 1 with zero volume.

AMBASSADORS

Ambassadors can participate in profit-sharing from the robots and earn passive income. Plans start at 100 USDT.

You can purchase as many plans as you wish.

Payment for Property Robots can be made via bank transfer or cryptocurrency and plans will be activated within 24 hours.

The daily profit will be visible in the Back Office at www.propertyrobots.com every 24 hours.

The number of days to receive profits is determined at the time of purchase, with a countdown timer displaying the days elapsed.

Withdrawals can be made at any time via the Tron USDT network, with a minimum withdrawal amount of 50 USDT.

There are no withdrawal fees. Once payment is made, Ambassadors can reap benefits from the Unilevel program.

➤ Ambassadors can actively promote the Property Robots Program and the affiliate system by referring and sharing with others who can join and earn profits.

➤ The Ambassador's Qualification Volume is calculated based on personal investment + the total team volume (horizontal and vertical sales).

➤ For free accounts without plan purchases, you can only earn 08% from your direct referrals.

➤ Team volume is only accumulated if the account is paid. Members without a plan do not generate sales volume accumulation.

➤ Each time an Ambassador reaches a qualification volume, their Ambassador status is upgraded. As an example, if a new member purchases a \$1000 plan the Ambassador will advance to level 2 earning a 15% bonus from their new referral.

➤ As the Ambassador's level increases, they earn a higher percentage on both direct and indirect referrals. Refer to the Ambassador Reward table (statuses 1-15) to determine the corresponding qualification volume, as well as the percentages for direct and indirect referrals.

➤ Ambassadors will earn commission for direct & indirect sales.

The formula for indirect sales

$(\text{Ambassador status \%} - \text{Direct referral's status \%} = \text{Commission \%})$

➤ In this example, an Ambassador at status 2 receives a 15% commission from their indirect referral who receives 08% at status one from the direct referral, so the total earnings that the Ambassador would receive is the difference of 15% minus 08% resulting in a 7% commission. For instance, if the Ambassador's direct referral purchases a 100 USDT plan, the direct referral will earn 08%, which equals 08 USDT, while the status 2 Ambassador will earn 7%, which amounts to 7 USDT.

If an Ambassador and their direct referral share the same status, no commission will be earned until one of them advances to a higher status. For instance, if the Ambassador is at status 2, and their direct referral is also at

➤ Commissions earned through the affiliate plan can be withdrawn immediately and will be disbursed in USDT.
